

# Beyond the 30 X 30

Valerie Reed  
Technology Manager  
Office of Biomass Programs  
Office of Energy Efficiency and Renewable Energy  
August 1, 2006

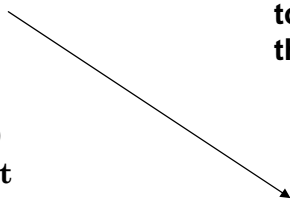

## Federal Biomass Posture Plan

**Biomass 30 by 30  
Workshop Report**

- Industry
- National Labs and Academia

**Federal Posture Plan**  
Intergovernmental commitment  
to achieve the goals set forth  
through the strategic roadmap

- Hydrogen Posture Plan -
  - released March 10, 2004
  - outlines the activities, milestones, and deliverables DOE plans to pursue to support America's shift to a hydrogen-based transportation energy system.
  - The Posture Plan integrates research and development activities and identifies milestones for technology development over the next decade, leading up to a technology readiness milestone in 2015.

## Federal Agencies

- Biomass R&D Board – Biomass R&D Act of 2000
  - DOE – EERE and Office of Science
  - USDA
  - EPA
  - DOI
  - OSTP
  - OFEE
  - DOT

---

Others – DOD...

Purpose: The Posture Plan will identify the various roles or activities each Federal Agency has opted to support to meet the goals of the President's Biofuels Initiative.

The Posture Plan could be used by all agencies to establish or direct supporting Biomass Programs and could serve to justify budget requests.

Timing:

Initiate – mid-September

Anticipated Completion - November, 2006
